L2 SWITCH
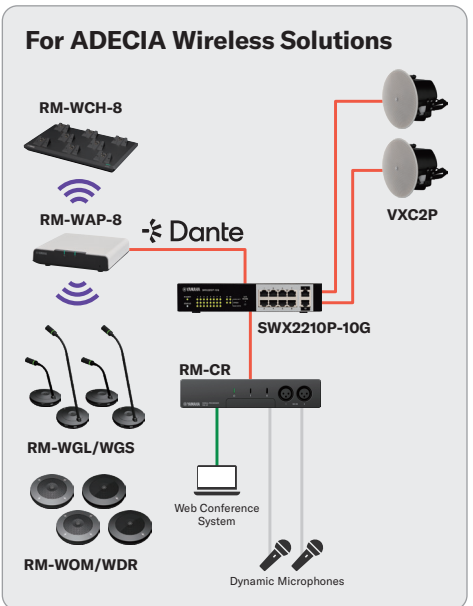

SWX2210P-10G

# SMART L2 NETWORK SWITCH WITH PoE+

SWX2210P-10G is a smart L2 switch that can supply power to PoE powered devices on the network. Yamaha has integrated its own expertise in networking and professional audio fields and developed it as an L2 switch optimized for Dante audio networks.

L2 PoE Switch **SWX2210P-10G**

No more Configuration for ADECIA

When Dante PoE devices, like the VXC2P and VXL1-16P, are connected to the SWX2210P-10G, settings optimized for Dante are automatically applied via LLDP, a protocol for exchanging system management data between neighboring devices.
